### Summary

---

Passionate and detail-oriented Front-End Developer with hands-on experience building responsive, user-friendly web interfaces using HTML, CSS, JavaScript, React, and Tailwind CSS. Strong background in translating UI/UX designs into clean, maintainable code, with real-world experience managing and enhancing WordPress/WooCommerce websites. Complemented by practical exposure to workflow automation and AI-powered integrations, supporting business and marketing systems. Continuously improving technical skills and eager to contribute to collaborative, agile teams delivering high-quality digital solutions.

### Experience

---

#### Front End Developer, *Freelancing*

Present

Worked as a freelance Frontend Developer delivering responsive and user-focused web applications for real clients. Specialized in building clean, high-performance interfaces using modern frontend technologies, translating business requirements into practical and scalable web solutions.

#### Digital Solutions Consultant (Web, Automation & AI), *markedsmateriell.no* 📄

Present  
Remotely

- WordPress Website Administrator

Managed WordPress/WooCommerce website end-to-end, including content updates, checkout customization, pricing tables, translations, and UX improvements.

- Data Collection & Web Research

Conducted market and competitor research; collected and organized product and pricing data for 5+ competing companies.

- n8n Workflow Automation Specialist

Designed and implemented n8n workflows for marketing automation, integrating web forms, AI APIs, and Google Drive.
